THE People,s party cast 85,000 votes in texas. - Omaha Tocsin.

THE People,s party is the first political party in the history of the nation to win any electoral votes in its first national campaign. Our Candidate will have twenty-three votes in the electoral college.

NOVEMBER 25 is known as evacuation day at New York. March 4 is looked forward too as evacuation day at Washington. After that no one day will hold pre-eminence above another, for verily! all shall be moving-days.

IF the farmers of the United States would only free themselves from party prejudice and stand together for their own interests, they could have a gennine session of congres at Washinton instead of the "humbug affair" which meet at our capital week before last.

THOSE who have carefully watched the mercantile reports, declare that there has been an increase in the volume of trade since Harrison's defeat. If this should prove to be the case for any considerable length of time, what a great affliction it would be to our friends, the republican prosperity howl- Most of our sister states addopting the

AFTER losing a Senatorship in Nebraska, Kansas and Wyoming, the republicans are busy brushing up some of their old tactics that they may use them in regaining the lost Senators. The party has never been found nodding when there was any "spoils" at issue, and we believe they will be up and watching for "snaps, when the legislatures meet to elect United States Senators.

MISS MARKELLA, the 10 year old daughter of Mr. Pomeroy, editor of Advance Thought is entitled to the credit of coining a new word, and we think one that will find many admirers as it seems to have the meritof brevity. It was on this wise, On her return from London last summer, she was heard to remark "If you want to see more of suffering and misery than ever seen in this country just go to London and see the poor, dirty ragged 'forlornities' in that city."

Poor Dave Hill, is now in the soup. After having the presidential bee in his hat so long, and burying the broadax' toma-hawk, and other little implements of minor importance, and work ing Tammany for all it was worth for Grover, that the great man of destiny might return the compliment in 1896, now like a clap of thunder out of a clear sky, comes the heart-rendering schools. intelligence that the edict has gone forth that New York is no longer the pivotal state, and the St. Louis Republic has sounded the tocsin, and other flaming lights in the party have taken up the refrain until the west is now reverberating with the cry, "a western man in '90 or bust." Surely Dave, with "what measure ye have measured shall

This is an average of \$354 a year for all labor skilled and unskilled. A dollar a day is not very high wages for a weekingman with a family, living in an eastern city with high rent and high prices for every thing he buys-yet we are constantly being told about the prosperity of the people, and what great things protection has done for our country. Slowly but surely the most is rolling away here last week with a car load of horses before the clear convincing arguements of truth. The work is too great and the demand for reform too urgent for any one to slacken their zeal now. Keep the people supplied with good reform literature. Raise the standard of liberty higher. to our ballot system and they express themselves in favor of amending our Australian ballot law. Our present ballot is inconvenient, it affords opportunities for treikery in arranging and printing tickets, and is a source of many errors on the part of voters. Australian system have what is known as the "Blanket ballot." The full ticket nominated by the various parties are printed side by si de and at the head of each ticket is a picture of some candidate or something else so that the voter who cannot read, can easily the voter wishes to vote the ticket the head of the ticket. If he desires to vote a mixed tacket, he can do so by making a cross opposit the name of each man that he wishes to yote for. There seems to be a general sentiment in favor of addopting this form in Nebraska. Why not have this amendment made before the next election.

### Who Voted the People's Party Ticket.

The stock advice of all the reform papers has been to "agitate and educate." The various industrial organizations of the country have organized schools, and all the scholars in attendance, who have brains enough to comprehend and honor enough to do right, have been graduated into the people's party. The percentage of graduates is not as large as we could wish to expect but amoung them are the thinkers and the present writing. leaders of this decade and they voted for Weaver and Field and the entire sick list for a week or two. people's party ticket.
